Progress!

As the July Weather Clears....Our Path Forward Also Gets More Clear

We've spent the last three weeks working hard on lease details, building issues, blueprints and ADA codes. Whew! We appreciate everyone's patience and support.

So while we can't *quite* yet say "We've Signed the Lease...Pick Up Your Paintbrush" we can say that we've made positive steady progress and continue to be amazed each and every day by community enthusiasm and support.

Our biggest need continues to be fundraising. Meeting our initial June 11th goal of \$20,000 allowed us to move forward to sign the lease. We now need to raise an additional \$20,000 for build out. We will also be seeking donated construction materials when the time comes.

So, pass the word that our community has a unique, one-time opportunity to transform the historic Lewis Hardware building into a vibrant and thriving art center.

An historic space and an historic opportunity for art and the community.

Thanks again and stay tuned.
